Zadar is an ancient Mediterranean port city. The old town, surrounded by walls and towers on a peninsula, with a new, urban part connected by a bridge (following photos were taken on the 12th EKO Matsushima Summer Camp – Zadar 2021 with 73 participants from 13 countries).

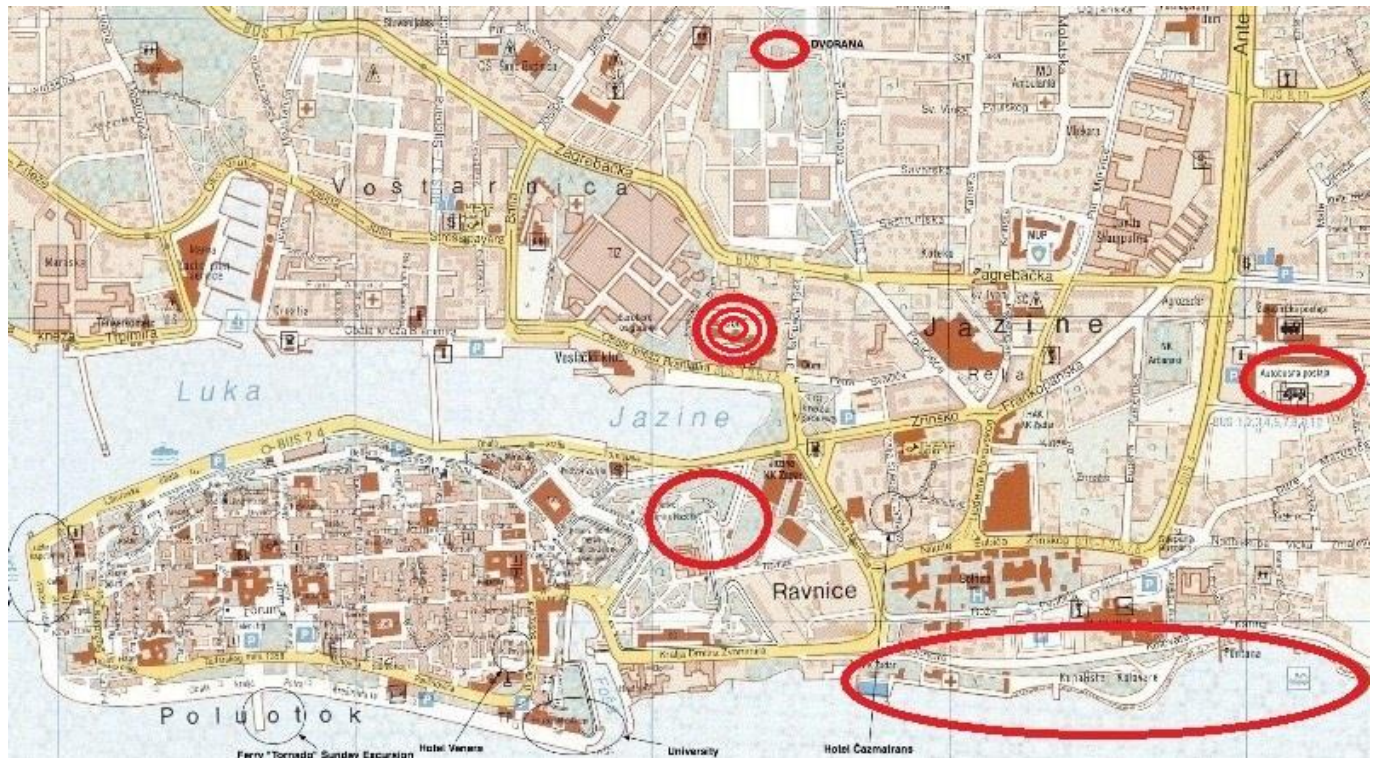

Church of St Donatus – is a symbol of the city of Zadar and the most famous example of early medieval Croatian architecture, the church is unique in Europe.

Due to its superb acoustics, it is also a popular venue for music events.

Training locations and distances:

- City park is located in front of old town on peninsula 5 min. walk from the Hostel to the south;
- City beach Kolovare with many small beaches along the coast is 10 min. walk to the south;
- Sports Center with the tatami equipped sports halls is 10 min. walk to the north;
- Bus station is 15 min. walk to the east and Zadar Airport is 7 km on the east.

City Park – created on the Venetian fortress Forte and has almost five hectares. It was built between 1888 and 1890 on the idea of the then governor of Dalmatia Dragutin Blažeković, who was a lover of nature and plants.

City Beach Kolovare – 10 minutes walk from the Hostel. Suitable for all ages, people with disabilities and a popular meeting place for young people during whole year. Kolovare Beach has a Blue flag since 2014 - a mark of a beach that meets high standards.

Film director Alfred Hitchcock during his stay in 1964 wrote: *"Zadar has the most beautiful sunset in the world, more beautiful than the one in Key West, in Florida, applauded at every evening".*

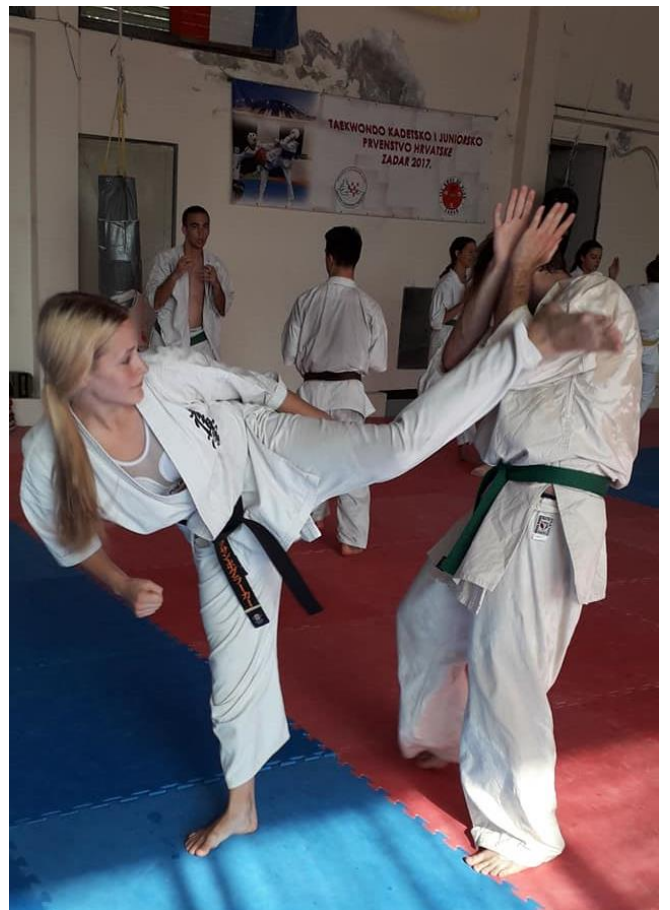

Greeting to the Sun - remarkable installation made out of 300 photo-sensitive glass plates that absorb daylight and transform into a wondrous light show at night. Designed by Nikola Bašić who also designed Zadar Sea Organ (both are 20 min. walk from the Hostel)

Sea Organ – an architectural sound art object and an experimental musical instrument, which plays music by way of sea waves and tubes located underneath a set of large marble steps
